| | - Academic/vocational competition course |

Catalog Description:

(Please do not refer to transferability or degree, certificate, or employment concentration applicability. Please only describe the course).
(75 words or less in gray box below).

This course is designed for pre-season softball conditioning for intercollegiate athletes, including strength training, cardiovascular conditioning, drill techniques, and game play in preparation for intercollegiate competition. Students who repeat this course will improve softball skills and fitness through further instruction and practice.

Schedule Description:

(Please do not refer to transferability or degree, certificate, or employment concentration applicability. Please only describe the course).
(25 words or less in gray box below).

This course is designed for pre-season softball conditioning for intercollegiate athletes. Students who repeat this course will improve skills and fitness through further instruction.

Need for the course:

This course is necessary for students to prepare in the pre-season for upcoming competition in softball Intercollegiate Athletics. Through this course students develop a plan to meet their own health and wellness goals through directed study of conditioning techniques, activities to improve health and fitness and simulation of softball strategies. This course is an elective in the PE degree.

Prerequisite(s):

Prerequisites go through a separate approval process. See Forms E1-E6 for details.
(For further clarification, contact the Prerequisite Subcommittee)

- Students planning and preparing to compete in Intercollegiate athletics must be healthy enough to pass a physician's examination and complete an interview with the instructor.

Corequisite(s):

Corequisites go through a separate approval process. See Forms E1-E6 for details.

-none-

Recommend Preparation:

Recommended Preparation goes through a separate approval process. See Forms E1-E6 for details.

-none-

Other Enrollment Criteria:

-none-

Learning Objectives:

(please number each objective and express in behavioral terms)
Upon the completion of the course the student will be able to do the following:

1. Demonstrate athletic fundamentals necessary for competition.
2. Exhibit rules, strategies, and techniques for athletic competition in softball.
3. Adjust the principles of strategies to fit game situations.

4. Train cooperatively with teammates and display strong communication skills in practice and competition.

5. Identify and perform activities for improved flexibility and agility.

6. Perform basic cardiovascular and resistance techniques to improve aerobic and anaerobic fitness.

7. Relate footwork patterns to athletic techniques required for softball.

8. Produce athletic movements and techniques that are necessary to successfully compete in intercollegiate athletics.

9. Combine increased conditioning levels with softball knowledge, techniques, and strategy necessary to compete at an intercollegiate level.

Course Content:

(please number the outline of main topics and subtopics)

This is a Lab class only.

Lab Content:

(please number the outline of main topics and subtopics)

1. Conditioning and Weight training Development for softball

1. Weight Training

1. Machines

2. Olympic

3. Plyometric

2. Aerobic

3. Speed training

a. Linear

b. Change of direction

c. Explosive power
2. Pre and Post Assessment of softball skill levels
3. Pre and Post conditioning assessment and evaluation
- a. 300-yard shuttle

b. Body composition testing

c. Weight lifting maximums

d. Vertical jump

e. Pro Agility

f. 40-yard dash

g. Mile test

h. Multi-rep maximums
4. Softball drills and strategies
5. Nutrition and Diet

Methods of Instruction:

Methods of instruction may include, but are not limited to the following:

- **Method:** Directed Study

Integration: Instructor will provide individual and/or group instruction of softball skills including rules, strategies, conditioning, and skill techniques.

• **Method:** Activity

Integration: Instructor will design and facilitate health and fitness activities to develop player performance.

• **Method:** Role Playing/Simulation

Integration: Instructor will set up game scenarios with softball strategies for students to practice.

• **Method:** Observation and Demonstration

Integration: Instructor will demonstrate and ask students to model communication techniques necessary for live competition in softball.

Methods of Evaluation:

A student's grade shall be determined by the instructor using multiple measures of performance related to the course objectives. Methods of evaluation may include but are not limited to the following:

- **Method:** Class Performance
Integration: Students will be assessed on proper skill execution and correct and timely use of softball tactics and strategies.
- **Method:** Final Performance
Integration: Students will be evaluated on their achievement of college-athlete level performance on weight lifting maximums, speed, agility and the mile endurance run.
- **Method:** Homework
Integration: Students will research the rules of softball, and write reports to prove they are reaching proficiency in knowledge and correct application of the rules in practice drills.

Examples of Assignments:

Students will be expected to understand and critique college level texts or the equivalent. Reading and writing, as well as out of class assignments are required. These assignments may include but are not limited to the following:

- 1. Pre-Season Portfolio:**
- Directions:**
For this assignment, you are to keep accurate records of all aspects of your weight, strength, conditioning, and speed. Your portfolio must contain all pre, mid, and post cycle testing of height, weight, vertical jump, Olympic lifts, 40-time, and pro-shuttle time. In addition, your portfolio must contain weekly data spreadsheets monitoring your progress in all aspects of your pre-season training development related to softball. Your portfolio should contain your dietary log including all supplementation. This assignment will be collected at the mid-term and at the end of the semester.
- 1. Pre-Season Video Analysis:**
- Directions:**
For this assignment, you will be required to watch and analyze video of yourself and assess your technique and work within the sport specific scheme. Your analysis will be written down in a notebook to monitor your growth and development as an athlete as you progress through the pre-season training for softball. In addition, you will be required to watch video of a competitor and analyze and assess their technical strengths and weaknesses as well as their softball schemes and tendencies. This analysis will also be written down in your notebook for periodic review. This assignment will be collected at the mid-term and at the end of the semester.
