Introducing the MSJC STEM Building Naming Opportunities

Discover the transformative potential of naming the exciting new Science, Technology, Engineering, and Math (STEM) buildings at our San Jacinto and Menifee Valley campuses. These state-of-the-art facilities, set to open during the 2024-2025 academic year, will revolutionize on-campus learning experiences and prepare students for high-demand college and career pathways.

The demand for STEM-related occupations is surging, growing almost twice as fast as the demand for other jobs. A flourishing pool of STEM graduates from MSJC will meet current industry demands and help attract new companies to Southwest Riverside County, boosting economic growth and prosperity.

Exciting Naming Opportunities

MSJC is offering exclusive naming rights partnerships for the two new STEM buildings and various spaces within them. Whether it's naming a building, classroom, lab, or other areas, there are unique opportunities to align with MSJC's commitment to excellence in STEM education.

Join us in shaping the future of education and workforce development at MSJC. Check out our available naming opportunities and find the perfect fit for your support and vision.

NAMING OPPORTUNITY:

Mt. San Jacinto College STEM Buildings

*Strengthening the MSJC
Legacy of Transformation*

ADD YOUR NAME
