History: Associate in Arts for Transfer CSU

Every moment in time becomes history. Great events like the Second World War to the smallest interaction between local peoples influence and inform all that comes after. Similarly, the study of the past reveals valuable achievements as well as dreadful mistakes, and in so doing helps us become more globally informed citizens to better address the unexpected challenges of our own day. The study of history helps us learn to think with rigor, to write with clarity and precision, to organize and assess evidence, to analyze problems, and interpret complex events that will contribute to our academic success and professional endeavors.
