PROGRAM DESCRIPTION

The A.S.-T in Mathematics for Transfer consists of a clear sequence of courses which prepares students for transfer into the major. The study of mathematics concerns the nature and manipulation of known and unknown quantities. The MSJC mathematics transfer degree is designed to provide students with an appreciation of the nature, scope and power of mathematics, as well as an understanding of how mathematics is applied to business, engineering, science and daily life.

CAREER OPPORTUNITIES

Transfer Degree

For BA/BS careers, please see your transfer institution.

TRANSFER PREPARATION

MSJC offers a range of course work to prepare students to transfer to four-year colleges and universities. All four-year institutions prescribe their own standards for course evaluation and admissions. Prospective transfer students are advised to research careers, degrees and majors in the Career/Transfer Center, access www.assist.org, review the MSJC catalog and meet with a counselor to expedite their transfer plan.

LEARNING OUTCOMES

- Develop the ability to express ideas and reason logically regarding abstract situations.
- Synthesize ideas and apply mathematical reasoning and logic to the real world.
- Set up and solve problems using arithmetic, algebraic, and geometric models.
- Write mathematical information symbolically, visually, and numerically.
- Develop problem-solving and modeling skills.

DEGREE

Transfer A.S.-T Degree

Mathematics

An Associate in Science degree in Mathematics for Transfer will fulfill the requirements for students to transfer to a four-year college or university as a Mathematics major.

The major required for an A.S.-T in Mathematics for Transfer may be met by:

- Completion of 60 semester units or 90 quarter units that are eligible for transfer to the California State University.
- The Intersegmental General Education Transfer Curriculum (IGETC) or the California State University General Education-Breadth Requirements.
- A minimum of 18 semester units or 27 quarter units in a major or area of emphasis, as determined by the community college district.
- Obtainment of a minimum grade point average of 2.0.

ADT also requires that students must earn a C or better in all courses required for the major or area of emphasis. A "P" (Pass) grade is acceptable if pass is defined as a grade of C or better.

A.S.-T in Mathematics for Transfer (19-24 units)
Required Core Courses/Sequence (13 units)

MATH-211 Analytic Geometry and Calculus I 4 units

MATH-212 Analytic Geometry and Calculus II 4 units

or

 MATH-212HHonors Analytic Geometry and Calculus II
4 units

MATH-213 Analytic Geometry and Calculus III 5 units

or

 MATH-213HHonors Analytic Geometry and Calculus III
5 units

List A: Select one-two (3-7 units)
(Can use both in List A in lieu of any courses in List B.)

MATH-215 Differential Equations 4 units

MATH-218 Linear Algebra 3 units

List B: Select one (3-4 units)
(See List A.)

CSIS-113A C++Programming - Level 1 3 units

CSIS-123A C++ Programming - Level 2 3 units

MATH-140 Introduction to Statistics 3 units

PHY-201 Mechanics and Wave Motion 4 units

Units for Major 18-24
CSU General Education or IGETC Pattern 37-39
Possible double counting 7
Transferable Electives (as needed to reach 60 CSU transferable units)
Total Units for A.S.-T Degree 60 units

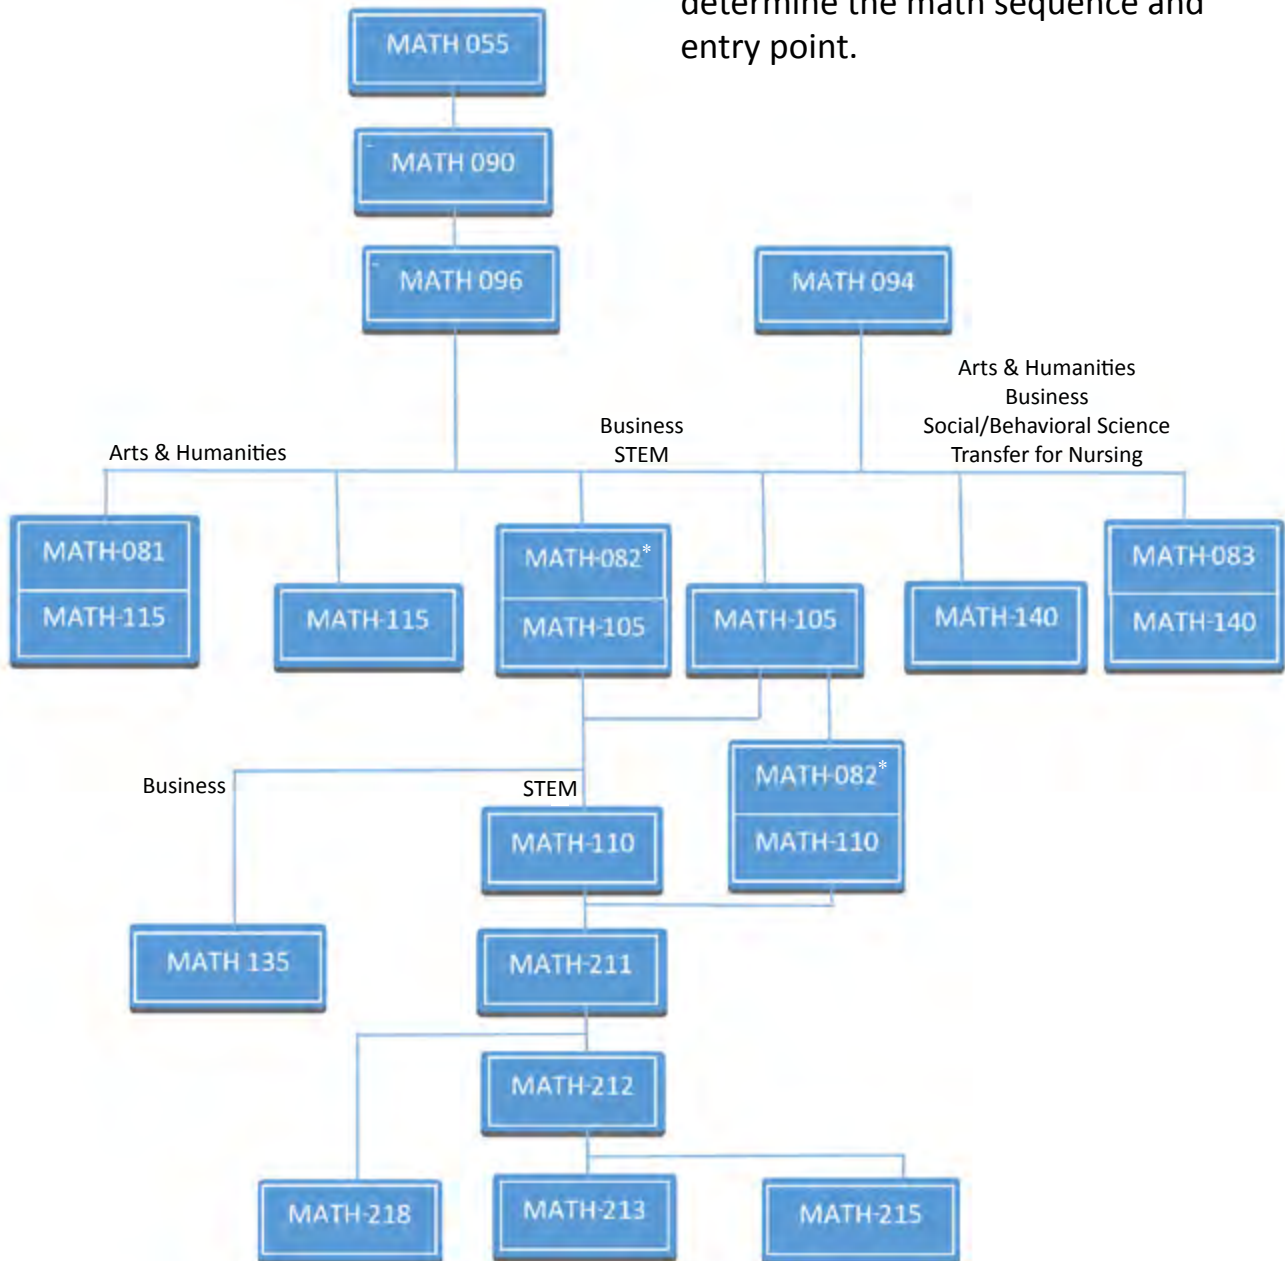

Note: When selecting 4-5 unit courses for the Associate in Science in Mathematics for Transfer, keep in mind that you may not require more than 60 units for the entire degree.

This Associate in Science in Mathematics for Transfer degree is intended for students who plan to complete a bachelor's degree in a similar major at a CSU campus. A student completing this degree is guaranteed admission to the CSU system, but not a particular campus or major. Students should meet with a counselor to develop an educational plan and receive university admission and transfer requirements.

MATH COURSE SEQUENCES

Note: Student's choice of major will determine the math sequence and entry point.

*Can only be taken 1 time.
